List in process.

Original file listings indicate that correspondence files in this Series had been divided into two sequences: 'To 1959 inclusive' and '1960 onwards'. This file name system has been retained (responsibility unknown but probably created and maintained by Christopher Mann or his staff). The original file lists are filed at the beginning of the appropriate alphabetic folders.

Series list compiled by Beth Frayne for the Callaway Centre Archive, UWA, 2008.
