List in process.

There is one existing short list of file names (titled CM Miscellaneous) that corresponds to this Series. Many batches of correspondence are identified with labels and the date span '1960 onwards'. Responsibility for the original file arrangement is unknown but probably created and maintained by Christopher Mann or his staff. The Series has been arranged by the archivist into alphabetical Files. File names from the CM Miscellaneous file list are recorded against the appropriate alphabetical File. The original file list is filed at the beginning of the first File (Folder: A). File contents have been partially recorded.
